## Camp Philosophy

This team-oriented camp is designed to improve individual techniques and football fundamentals. Teams and individual players will be provided three days of opportunities to build team camaraderie and physically prepare for the upcoming football season. **The emphasis for this camp is preparation for your fall season.** This camp will jump start you physically and allow what was learned to carry over into your fall preparations.

Our format allows you and your team to work on individual fundamentals and techniques which fit your program schemes and philosophies. Your team will then be provided the opportunity to work against other schools in controlled scrimmages.

Each school will be provided a designated practice field where individual team drills and schemes can be reviewed or introduced. The camp coaching staff will assist your team in any capacity that you wish. Our goal is to help your program succeed. High school coaches will have multiple opportunities to work with their teams. It is our responsibility to ensure that your team gets the most from this camp experience and that you are healthy and prepared for your fall season.

Individuals and partial teams benefit from this camp as well. We will assign individuals to teams and combine partial teams for the competitions and football activities to ensure that everyone has a competitive football experience.
